Must Abandon Present Submarine Warfare

Washington, April 19.—America's note to Germany, made public here late today says:

"Unless the imperial government should now immediately declare and effect the abandonment of its present methods of submarine warfare against passenger and freight carrying vessels, the government of the United States can have no choice but to sever diplomatic relations with the German empire altogether."

"It says the note, 'it is the purpose of the German government to pursue relentless and indiscriminate warfare against vessels of commerce by the use of submarines without regard to what the government of the United States must consider the sacred and indisputable rules of international law and the universally recognized dictates of humanity, the government of the United States is at last forced to the conclusion that there is but one course to pursue.'"

Compulsory Service League Is Formed

Ottawa, April 18.—The Canada National Service League, with the object of compulsory service, came into being when the delegates who attended conference of recruiting leagues formed an association. The meeting was not wholly pleased with a reply of Sir Robert Borden to the plea for national registration. One member said it was necessary to obtain a register of eligible young men between the ages of 18 and 32 and if the government would not do it they would have to do it themselves in their own communities.

The following resolution was adopted: "Recommended, that an association be formed to hold together those who have been in conference in order that the work here initiated be continued and that other forms of national service be taken up as need arises, that the name of the association be the Canadian National Service League; that the purpose of the association is to promote any form of national service which the need of the hour may demand; and that a chairman and secretary be appointed."

More Soldiers Than Letters in Bible

When we read in the newspapers, writes a contributor of the *Laurel*, that the British army is now 4,000,000 men, and remember that before the war I was about 805,000, we are a little at a loss in appreciating the comparison. The following method may help us to realize what this increase means: There are 805,000 words in the Bible and we had about that number of soldiers. There are also 3,500,000 letters in the Bible, and we can now compare every letter as a soldier, instead of every word, as heretofore.

Also, we may consider that the first letter of every three verses is a word in the I.C.M.C. for there are about 10,000 medical officers now, and there are 10,173 verses in the Bible.

Morgan On The War

P. P. Morgan, back in his office after a trip to London and Paris, told friends who dropped in to see him that the talk of an early conclusion of the war was not based on a correct understanding of the conditions. He said it was true that the end of the struggle was in sight if one could that expression to mean that the turning point had been set by the attack on Verdun, but he believes that Germany would be a long time before she would agree to terms that the Allies were bound to obtain. Mr. Morgan came back firmly convinced that the Allies could never enter negotiations looking to a settlement until she was in a position to assure the world that the measure of another great war had been entirely removed.

Ptes. Henry Raymond and J. Douglas, of the 113th Kilties, Leithbridge, and 30th, Calgary, respectively, are visiting friends in town for a few days.

Harold Jackson, lawyer, of Pincher Creek, has been attached to the 192nd Battalion, and arrived here Monday to attend the military training school.

The little town of Chilliwack, B. C., has certainly suffered through the war. Out of the first 45 kids who went to the war there are but one left in the firing line. The others are dead, prisoners of war or hospitalized home.

That John Mychelus, the hired man with the Manurewa family at Saskatoon, and brother to Mrs. Manurewa, wiped out that family and then killed himself was the verdict brought in by the coroner's jury at Wakaw.

There are persistent rumors in financial circles in Holland to the effect that the Austrian government, in consequence of the grave domestic situation, is seriously thinking of abandoning its share of the war struggle.

A court of confirmation of the tax enforcement return of the Town of Blairmore was held at the town hall yesterday, presided over by Judge E. P. McNeill, of Macleod. The court adjourned for one month.

St. John, New Brunswick, has adopted the daylight saving plan, and the council has unanimously placed a by-law in the civic record providing that the clocks shall be put ahead one hour on the last Sunday in April each year, and turned back one hour on the last Sunday in September. Halifax has adopted a similar scheme.

The increase in Canada's military forces automatically doubled the task of the Canadian Red Cross at the beginning of the year. All available statistics show that the country is bearing this increased Red Cross strain most admirably. The Records of the Central Shipping Depot in Toronto show a progressive increase in shipments. The monthly average is now over 6,000 cases. The reports of various branches prove the same healthy condition of activity.

In response to numerous requests, Mr. Ames has decided to operate the Star Studio, Blairmore, for a longer period than at first contemplated. Open daily, best work, popular prices. Get your photographs taken now.

The "White Feather" troupe were received at the opera house last night by the largest audience that has attended a theatrical performance for years. Every character was well represented and the play was highly appreciated.

A young man in Blairmore had a tender passion and took his girl some flowers. "How kind of you," said the girl, "to bring me these lovely flowers. They are so beautiful and fresh. I think there is some dew on them yet." "Yes," said the young man, in great embarrassment, "there is, but I'm going to pay it off tomorrow."

The Need of Production

It must be plain to the most obtuse and unscrupulous mind that twenty-four or twenty-five million of men cannot be sustained even from the expanding population of Europe without effecting a large reduction in the produce of food and of the soil. Women may in a moment supply the places of men, but it must be remembered that women have also their sphere in the economies of life. Therefore in taking them to the head they are being taken, in the main from other employment. Consequently, if for every man who goes to fight there was a woman to take his place in agriculture or other industry there would still be a deficiency not only in labor but in production. At the present time 40,000 women are being called for to take the place of 250,000 British soldiers recruited from farms.

However it is clear that no matter what steps may be taken either during the war or after the war, there must be an economic advantage of the requirement across the Atlantic for many years to come. And that shortage for a period subsequent to the declaration of peace will be as keenly as any time during the gigantic struggle. With the normal economic for existence resumed there will be the immediate economic control in other words there will be less systematic regulation of supplies. To meet the demands that must succeed extra consumption, tremendously less production and immensely greater wastes there will be abundant need, but for one year's hoarding crops, but for similar losses during a score of successive years. Where and how can this increased demand be met. There is but one answer to the dual question—by the undeveloped countries and by redoubled efforts at production in these countries.

That Canada is not the only country that has not lost its resources in large part exhausted or destroyed, is true; but there is plenty of reason to believe that the nations of Europe and engaged in the war, have been drawn upon to the utmost of their resources; hence when the time comes all eyes will be turned from east to west for succor. Canada, being the nearest to the great centre of continental masses, is the first looked upon will have the greatest opportunity. The loss of Russian harvests have been on parade since the war broke out, but Russia, with twelve or fifteen million men called to arms largely of the peasant class, has suffered and is suffering, like the rest. She, too, will need reorganizing, rejuvenating and regenerating. Hence, for a few months after the cultural hostilities, there may have been something to be expected from the release of stores of wheat and other grain from Odessa and other Black Sea ports there is nothing available now and there may be little in the next decade. Hence, Canada's role is plain—to go on producing, to go on gathering and storing, if necessary, in the sure and certain hope of ultimate profit and prosperity. There never was a time, and probably never will be another time when we were more largely called upon to produce, in increased quantities, not alone all articles of food, but every article that enters into the industrial life of peoples.

Cowley Happenings

The threshing of last year's crop is still going on.

Misses Florence and Edith Gilmore drove to town on Friday.

Mrs. F. Lank spent a few days last week with Mrs. H. C. Morrison.

Otto Iredale and family have moved to their homestead near Warner.

Everybody seems to be busy these days with crops, gardens and poultry.

The boys and girls are still busy with the geophers. Stick with it, kiddies.

The April showers fell in the form of snow off and on all day Saturday.

Mr. Tustian, senior, who has been on the sick list, is getting around again.

Elwin Tustian went to Burdett as assistant station agent the early part of the week.

H. D. McMillan, proprietor of the Cowley hotel, has invested in a new McLaughlin car.

The Doukhobors have six steam plows going in full swing on their new possessions in this locality.

The U.F.A. store will open up this week in the Howie store building with William Howie in charge.

The prairie flowers have appeared earlier by two weeks this year than they have for fifteen years or more.

Forest ranger W. T. Eddy has moved his family from the "Willow Ranch" to the forest reserve at "The Gap."

Mrs. Robert Day drove out from the Pincher Creek hospital amidst the showers of snow on Saturday with her infant daughter.

J. Carney had four hundred bushels of oats and a granary destroyed by fire a few nights ago, which started from a straw-stack that was burning close by.

A social evening was given at the manse on Friday evening by Rev. W. M. and Mrs. Chalmers. Admission being 25c. The proceeds went towards the manse fund. A very enjoyable time was reported by all.

Mr. Smith, principal of the

Frank Happenings

Romer has it that Frank is to have a new moving picture theatre.

Jack Foster, of the McVoll Oil Co., was on business Wednesday.

Jack (Trudeau), of the 13th C.M.R., was here Monday visiting friends.

Mr. and Mrs. McKinnon are visiting the former's sister at Michel for a few days.

R. Griffiths and W. Laflaw left Thursday night to attend the stampede at Calgary.

Fre. J.J. Tompkins, of the 88th, Red Deer, is visiting his brother here for a few days.

W. Howe, of the 13th, was here last week and visiting Miss McEwen at the Calabash.

A large number of local folk attended the "White Feather" performance at the opera house, Blairmore, last night.

The big "reel" smoker, which was to have taken place a couple of weeks ago, will be held tomorrow night in the union hall.

W. H. Hilton and John E. McDonald are among the latest to enter into motor.

We understand that they intend to operate a train in opposition to the C.P.R.

W. Hilton is in receipt of an interesting letter from Thomas Marsh, which we hope to quote next week. Mr. Hilton has also heard from Fred Parker and others, all of whom give good reports.

R. Nixon has received a letter from Sam Paton, who is now in a hospital in England, and hoping soon to return to the firing line. Many of the stories circulated regarding Sam's illness are very much in exaggeration. Sam is now feeling quite well, and only awaits the order to go.

Good, gave a lecture on the Red River settlement to the school on Tuesday evening, which was a most interesting and successful one. He gave an outline for the school to provide an outline for the school to provide.

While Mr. Perceval was burning a straw stack recently, the fire got away on him, burning part of his fence and then getting into James Smyth's field, where it approached to within twenty feet of the granary filled with grain.

However, they were luckily saved by the plowing of a fire guard around them in the nick of time.

Mrs. McLaren had quite an exciting experience on Friday last. Just at Mr. Iredale's gate the team became frightened at a dog and ran away, losing Mrs. McLaren and half of the wheels in negotiating the gateway. The buggy and all but two of a netting of goose geese which she was taking home were almost a total wreck, but Mrs. McLaren with her usual luck, escaped injury.

Bellevue Happenings

BOAN—To Mr. and Mrs. Charles Burrows, a son.

A. Goyette, of Frank, is putting a new floor in Cardie's poolroom.

The recruiting quarters have been moved to the Masonic hall.

Joe Gordon left this week for Winnipeg to purchase spring stock.

Mr. and Mrs. H. Jepson, of Frank, were visiting here during the week.

Miss Katie Williams, of the local teaching staff, is suffering from tonsillitis.

James Patterson, of Blairmore, was visiting his son William here this week.

Miss Inspector Shaw was here this week on his regular visit of inspection.

Rev. W. T. Young, of Frank, occupied the local Methodist pulpit on Sunday last.

Mrs. Dr. McKenzie, who has been absent for some time, returned home Saturday night.

Private Dave Hall, who is stationed at Red Deer with the 58th, is visiting his family here for a few days.

Walter Warren had his leg badly crushed in No. 1 mine on Thursday while following his occupation as driver-boy.

Mrs. James Marsland left Bellevue on Saturday on a visit to her parents on the Arrow Lakes. She intends staying some time.

Two of our Bellevue boys are paying regular visits to Frank, and the attraction must be something more than ordinary.

Word from the trenches was received through J. B. McLeod, here known as "Doc," somewhere in France. He is well and reports the Bellevue boys doing well.

Private Fred Harris, one of the recent recruits to the Buff detachment of the 103rd, favored the audience at the Union church with a most acceptable solo Sunday evening.

Mr. Harris possesses a well-trained voice and invariably delights his hearers—Hans Crag and Canyon.

Production and Thrift

"To win the war with the decisiveness which will ensure lasting peace, the Empire will require to put forth its full collective power in men and money. From this viewpoint it is our true policy to augment our financial strength by multiplying our productive exertions cut by curtailing rigid economy, which reduces to the minimum the expenditures upon luxuries and non-essentials. Only in this way shall we be able to make good the loss caused by the withdrawal of so many of our workers from industrial activities, repair the wreckage of the war, and find the funds for reconstruction. It cannot be too frequently or too earnestly impressed upon our people that the heaviest burden of the conflict will be before us, and that industry and thrift are, for those who remain at home, supreme patriotic duties upon whose faithful fulfillment our success and consequently our national safety, may ultimately depend."

SIR THOMAS WHITE, Minister of Finance.

**PRODUCE MORE, SAVE MORE.
MAKE LABOUR EFFICIENT.
SAVE MATERIALS FROM WASTE.
SPEND MONEY WISELY.**

LET US PRODUCE AND SAVE—

The war is now turning on a contest of all forces and resources—men, munitions, food, money. The call is to produce more and save. It may be necessary to work harder. The place of those who cannot be taken by those at home, men and women, old and young. The more we produce the more we can save. Produce more on the farms and in the gardens. Save more and help to win the war.

LET US NOT WASTE OUR LABOUR—

In this war-time all labour should be directly productive or should be assisting a production. Make it as efficient as possible. If you labour on something that can be postponed, put it off till after the war and make your labour tell now. Making war is the first business of all Canadians. Efficiency is labour as important as efficiency in fighting.

LET US NOT WASTE MATERIALS—

Begin at home. The largest portion of salaries and wages is spent on the home—food, fuel, light, clothing. Any of these things being wasted is \$20.00 a year saved from waste in every home in Canada will more than pay the interest on a war debt of \$200,000,000.

LET US SPEND OUR MONEY WISELY—

Are you spending your money to the best advantage? What do you think of extravagance in your home? Think of the thousands of Canadians who are daily risking their lives for us at home. Is it not our duty to make the best use of our money? Canadian dollars are tell. Have a War Savings Account. Make them count. Have a War Savings Account. Make them count.

A fatality unparalleled in the history of the little military town of Sussex, New Brunswick, occurred Tuesday morning of last week, when Mrs. Jennie Cook, a nurse, died from a bullet wound in the head inflicted by Private Frank J. Best who held a rifle, and who was acting as sentry on guard at a dairy school. Best was exonerated by a coroner's jury. It seems that the sentry fired at a man acting suspiciously in the vicinity of the dairy, and the bullet went through a window and caused the accident.

Great interest is being manifested by local people in the coming of the Royal Welsh Male Singers, who are to appear at the Coleman opera-house on Saturday night of next week, under the auspices of the Coleman fire department. The company comprises fourteen voices, and the combination is said to be the strongest that has ever toured from the greatest land of singers. In order to ensure accommodation of adults, all seats are reserved at \$1.00 each, and from the local management at Coleman we learn that already over two-thirds of the seating space of the opera house has been bought up.
